# EXPERIENCE, TECHNOLOGY AND MADE IN ITALY QUALITY.

It may sound simple, but this goal can only be reached after several years of hard and passionate work, always on the look-out for better solutions in terms of quality of materials and careful design.

TFL Franzoni has always worked to completely satisfy clients with reliable and durable products at the technological forefront and with competitive prices. For us, Made in Italy is more than just a slogan — it is a daily commitment to strive for our best.

Model: screwed cover  
with gasket, Clean Out

Outlet size:  
103 mm / 4 inches

# HIGH QUALITY PAST, INNOVATING PRESENT.

Over recent years, we have begun to offer finished products with our trademark thanks to continuous investment in high-tech machinery.

Our Floor Drain range has been particularly successful and has been used in several shopping centres and hotels worldwide.

1990

The company was created in a small warehouse of 150 square metres in Lumezzane in Brescia.

1998

It relocated to Cogozzo and continued to grow, equipping itself with new machinery and extending the warehouse.

2002

TFL (Trancerie Franzoni Lumezzane) Snc was born. In the meantime, the founder's children took on management roles to keep the family tradition going.

2012

The company continued to grow and became TFL Franzoni SRL.

2014

TFL Franzoni moved to its current headquarters of over 2000 square metres in Villa Carcina in Brescia.

2018

A nearby company with a surface area of 1200 square metres which polishes metals was acquired in order to finish products in-house.

2022

Our story continues with the same commitment and enthusiasm as ever, further investments in technology and new markets opening up.

Code: FD150.7  
Size: 15 x 15  
Material: AISI 304

Model: screwed grating and centrally screwed cover, which allows continuous drainage even when the cover is mounted

Outlet size:  
103 mm / 4 inches

# TFL FRANZONI. A LONG TRADITION OF SUCCESS.

We are therefore on the market today with a range of finished products in the sanitary and thermo-hydraulic sectors that have achieved a remarkable commercial response worldwide. In particular, we have large and continually increasing volumes of exports to Arab countries, where our brand is now both recognised and valued.
